Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 63 and 64 (both in part), 65, 70-76 (all in part), drawn to a method for identifying a modulator of binding between a DmGPCR and an allostatin of SEQ ID NO: 34, classified in class 435, subclass 7.1.
- II. Claims 63 and 64 (both in part), 66, 70-76 (all in part), drawn to a method for identifying a modulator of binding between a DmGPCR and an allostatin of SEQ ID NO: 35, classified in class 435, subclass 7.1.
- III. Claims 63 and 64 (both in part), 67, 70-76 (all in part), drawn to a method for identifying a modulator of binding between a DmGPCR and an allostatin of SEQ ID NO: 36, classified in class 435, subclass 7.1.
- IV. Claims 63 and 64 (both in part), 68, 70-76 (all in part), drawn to a method for identifying a modulator of binding between a DmGPCR and an allostatin of SEQ ID NO: 37, classified in class 435, subclass 7.1.
- V. Claims 63 and 64 (both in part), 69, 70-76 (all in part), drawn to a method for identifying a modulator of binding between a DmGPCR and an allostatin of SEQ ID NO: 165, classified in class 435, subclass 7.1.

2. The inventions are distinct, each from the other for the following reasons. Inventions I-V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP §806.04, MPEP §808.01). In the instance case, the different inventions are drawn to completely different methods,

Art Unit: 1646

each identifying a modulator of binding between a different allostatin and a DmGPCR. Thus, the methods are exclusive and require non-cohesive searches and considerations.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for a single group is not required for any other group, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48 (b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48 (b) and by the fee required under 37 CFR 1.17 (I).
